Pool Water Testing Video - Transcript

Video of a man kneeling beside a pool. He's holding a clear testing container with pink water in it and adding drops from a bottle while shaking the testing container. He's wearing blue jeans, a blue button-up shirt, and brown shoes. He has brown hair and there is a wall with windows behind him. The video is vertical with dark gray boxes on either side. Very low volume background noise of music and water. White text appears in the gray boxes with a matching gif. The gifs disappear as the video moves on, but all the text stays.

Top right gray box: teetering green arrow pointing at the man.
Text: This is Ryan.

Top left gray box: pink watery looking rotating arrow points at the pink water in the testing container.
Text: powder in the sample turned it pink – there's chlorine – YAY!

Next in left gray box: Light teal thinking cloud with numbers in it 1…2…3…4…5…6…
Text: counting drops until it turns clear

Next in right gray box: Rocking light bulb with a yellow starburst behind it.
Text: now he knows the chlorine level

Next in left gray box: teetering group of "germs".
Too little chlorine = too many germs

Next in right gray box: teetering face of a girl with watery eyes and a rash on her face.
Too much chlorine = irritating reactions

Red and blue arms/hands doing a hand slap and thumbs up in front of the video.
Next in left gray box:
Text: This pool is JUST RIGHT! (But, if it wasn't, we'd work with pool staff to keep it safe for swimmers.)

Next in right gray box: pictures of five pairs of real clapping hands surrounding the text and light colored animated sparkles of different sizes over the video.
Small crowd cheering and clapping sounds.
Text: Thanks Ryan!

Video ends.
